**Subject:** Microsoft Settlement

To Whom it May Concern:

After reading about the Microsoft antitrust settlement, I must comment that I do not feel it is in the best interest of the US or the US school systems to give Microsoft yet another opportunity to practice their bombastic, destructive practices.

Giving Microsoft the opportunity to further their power via their so-called giving of technology to schools just serves to erode in their favor one of the few remaining fields where they do not currently have a monopolistic grip.

Additionally, the amorphous nature of this part of the agreement leaves schools vulnerable to onerous license agreements in a few years.

Thank you for consideration of these comments.
